Finance major is offered through the John E. Simon Department of Business. The courses in finance major prepare students to launch exciting professional careers in both corporate finance (e.g., Financial Analyst, Budget Analyst, and Credit Analyst) and investments (e.g., Equity Analyst, Research Analyst, and Research Associate). Because of the emphasis on building practical skills, the coursework enables students to work in other quantitative fields, such as business analysis, etc. Throughout the 4-year program, among other things, students learn how to price an asset (such as stocks, bonds, options, and futures), how to manage investments, how to evaluate revenue-generating projects and raise capital to finance those projects.

The finance major can be an excellent choice to combine with other majors, such as accounting or business administration, as well as minors in related fields, such as economics or mathematics.

Majors must have at least a grade of C in all finance courses (only courses with FIN as the prefix) or the major as well as maintain a grade point average of 2.00 or higher to complete the requirements of the major.
